

PROVIDING YOU WITH THE ULTIMATE RELIGHT EXPERIENCE

WHAT IS RELIGHT?

Relight fixtures from Lithonia Lighting are an economic and environmentally sensitive solution available to upgrade your existing building to a lighting system that delivers the quality, performance and energy savings of the latest lighting technologies.

Benefits:

- Reuse existing housings to minimize waste
- Use of workspace while renovating
- Fast, simple payback from energy savings
- Ongoing savings from reduced energy and maintenance

WHY RELIGHT?

Office Solutions

Acuity Relight Kits

Upgrade existing 2'x2' and 2'x4' fixtures

Relighting with ES8R Lighting Kits:

- Ideal solution for renovating obsolete lensed or parabolic troffer systems
- Convert 4 or 3 Lamp Fixtures to a 2 Lamp T8 fixture
- Louvered lighting system provides even, glare-free lighting, higher vertical footcandles and reduced ceiling contrast for greater visual comfort
- Energy consumption is lowered by up to 67% compared to 4 T12 lamp fixtures
- Fewer, longer-life lamps for reduced maintenance and disposal costs
- Easy to Install

Relighting with RT5R & RT8R Volumetric Lighting Kits:

- Ideal solution for renovating obsolete lensed or parabolic troffer systems
- Convert 4 or 3 Lamp Fixtures to a 2 Lamp T5 or T8 fixtures
- Volumetric lighting eliminates the "cave effect" by delivering the ideal amount of light to walls, work surfaces, and people
- Energy consumption is lowered by up to 60% compared to 4 T12 lamp fixtures
- Fewer, longer-life lamps result in reduced maintenance and disposal costs
- Easy to Install

The **RELIGHT** kits allow for easy one-to-one fixture replacement, helping you realize your building's potential without having to replace the entire lighting system.
