

PURELL®

Known. Proven. Trusted.

America's #1 Instant Hand Sanitizer

PURELL Instant Hand Sanitizer is used in schools, healthcare facilities, restaurants and other business environments to help fight the spread of germs.

- Contains the active ingredient Ethyl Alcohol, an FDA-approved active ingredient that is recognized as safe and effective¹
- Contains moisturizers to leave hands feeling soft and refreshed
- Available in several different dispensing options to satisfy every need

Safe and Effective

- GOJO has high standards to meet both regulations and customer needs
- Meets international fire code regulation when installed properly
- Unpleasant tasting denaturing agent deters ingestion
- PURELL has been formulated for frequent and repeated use and tested in a variety of field situations including healthcare, education, food service and general workplaces with excellent outcomes
- Fully enclosed locking portion-control dispensers help deter misuse

Experts agree...

"When soap and water are not available, alcohol-based disposable hand wipes or gel sanitizers may be used."

*Centers for Disease Control and Prevention (CDC)
Stopping the Spread of Germs at Work. March 7, 2007.
<http://www.cdc.gov/germstopper/work.htm>*

"Waterless, alcohol-based hand gels may be used when soap is not available and hands are not visibly soiled."

*Occupational Safety and Health Administration
OSHA 3323-10N. 2006
<http://www.osha.gov/Publications/3323-10N-2006-English-07-17-2007.html>*

Some germs can live from 20 minutes up to 2 hours or more on surfaces like cafeteria tables, doorknobs, and desks.

PURELL Works

There are significant benefits of providing alcohol-based hand sanitizers. A number of studies were conducted to support the effectiveness of PURELL and a hand hygiene education program at **reducing the harmful effects of illness-causing germs:**

- **20% reduction** in absenteeism in a workplace situation²
- **51% reduction** in absenteeism in schools³
- **30% reduction** in infection rates in long-term care facilities⁴
- **36% reduction** in infection rates in a hospital setting⁵
- **40% reduction** in lost training time by the military⁶
- **30% reduction** in medical visits by the military⁶

It's the brand people know and trust.
