

Breaking News

The Circuit Breaker brands you need are here!

GE, Siemens, and Square D Circuit Breakers—because you needed a choice!

Is the Circuit Breaker you need obsolete or discontinued?

Grainger can quickly deliver discontinued or obsolete circuit breakers that perform like new—any size, panel to substation.

Breakers are reconditioned to original specs, including, if needed, disassembly to requalify all components. They are individually tested and certified to meet or exceed all relevant National Electric Testing Assn. (NETA) and Professional Electrical Apparatus Recyclers League (PEARL) specifications. We supply breakers dating from the 1960s to the present, even hard-to-find models, by manufacturers including:

- Bulldog
- Challenger
- Crouse-Hinds
- Cutler Hammer
- Federal Pacific
- General Electric
- Gould
- ITE
- Murray
- Square D
- Wadsworth
- Westinghouse
- Zinsco

Contact your local branch to order obsolete circuit breakers.

Stop in or call your local branch. Our knowledgeable representatives can help you find the products you need.
