Buildings consume 40% of US energy.1 Air leakage can lead to issues in the building envelope such as increased energy costs, temperature swings from room to room (uncomfortable indoor environment), and moisture intrusion which can lead to the potential for mold and mildew. All of those openings are like tunnels for heat and conditioned air to leak out and unwanted air to sneak in.

Close the Gap
By air sealing with GREAT STUFF PRO™ Gaps & Cracks, you’ll be providing a valuable service for your customers, helping to seal out energy loss, lower energy bills and provide a more comfortable building.

GREAT STUFF PRO™ Gaps & Cracks is a gun-applied, expanding spray foam sealant. It is also recognized as a fireblock sealant.**

### Features and Benefits at a Glance
- Ideal for gaps and penetrations up to 3” (75 mm)
- Recognized as a fireblock sealant**. It’s orange-colored for easy recognition.
- Expands to form airtight and water-resistant seal
- Bonds to wood, metal, masonry, glass and most plastics
- Repels and deflects water
- Quick cure time (tack-free in 3-10 minutes, trims in 60 minutes)***
- Cost-effective: 24 oz (680 g) can equivalent up to 22 quart tubes of caulk†
- Easy clean-up with GREAT STUFF PRO™ Gun Cleaner

### GREAT STUFF PRO™ Gaps & Cracks Insulating Foam Sealant can be used to fill gaps & cracks up to 3 inches in:
- Commercial Construction
- Residential Construction

Dow Polyurethane Foam Insulation and Sealants

CAUTION: When cured, these products are combustible and will burn if exposed to open flame or sparks from high-energy sources. Do not expose to temperatures above 240ºF (116ºC). For more information, consult (Material) Safety Data Sheet ((M)SDS), call Dow at 1-866-583-BLUE (2583) or contact your local building inspector. In an emergency, call 1-989-636-4400 in the U.S. or 1-519-339-3711 in Canada. When air sealing buildings, ensure that combustion appliances, such as furnaces, water heaters, wood burning stoves, gas stoves and gas dryers are properly vented to the outside. See website: http://www.epa.gov/iaq/homes/hip-ventilation.html. In Canada visit http://archive.nrc-cnrc.gc.ca/eng/ibp/rc/bsi/83-house-ventilation.html.

GREAT STUFF PRO™ Insulating Foam Sealant and adhesive products contain isocyanate and a flammable blowing agent. Read all instructions and (Material) Safety Data Sheet ((M)SDS), carefully before use. Eliminate all sources of ignition before use. Cover all skin. Wear long sleeves, gloves, and safety glasses or goggles. Not for use in aviation, or food/beverage contact, or as structural support in marine applications. Provide adequate ventilation or wear proper respiratory protection. Contents under pressure. Not to be used for filling closed cavities or voids such as behind walls and under tub surrounds; this improper use of the product could result in the accumulation of flammable vapors and/or uncured material. Failure to follow the warnings and instructions provided with the product, and/or all applicable rules and regulations, can result in injury or death.

GREAT STUFF PRO™ Gun Cleaner is flammable and contains acetone and propane. Read all instructions and (M)SDS carefully before use. Eliminate all sources of ignition before use. Cover all skin. Wear gloves, and goggles or safety glasses. Provide adequate ventilation or wear proper respiratory protection. Contents under pressure.

Building and/or construction practices unrelated to building materials could greatly affect moisture and the potential for mold formation. No material supplier including Dow can give assurance that mold will not develop in any specific system.
