50Amp Wiring Devices
Non-NEMA Locking Plugs, Connectors, Receptacles, and Flanged Inlets
For Industrial, Commercial & OEM Applications
Black & White™ 50Amp Non-NEMA Locking Devices

Rugged, Secure Connections for Construction & Manufacturing Sites

Black & White 50Amp Non-NEMA Locking devices are designed for faster wiring and longer life. Made from tough, impact resistant nylon housings and metal shrouds, these plugs, connectors, receptacles, and flanged inlets are designed for rugged environments like construction sites, commercial shipyards, & convention centers. Fabricated for broad utility, they easily mate with competitors’ devices and are certified to meet UL, CSA, and NOM standards. All devices are RoHS compliant making Leviton’s 50Amp device line your environmentally responsible choice.

Leviton offers a full complement of flip lids and boots for usage in dust-laden environments and marine areas.

Non-NEMA Locking Configurations:

Standard Locking
- 2P, 3W 250V DC/600V AC
- 3P, 4W 250V DC/600V AC
- Plugs, Connectors, Receptacles, & Flanged Inlets
- Cast Metal Flip Lid

California-Style Locking
- 2P, 3W 125V, 250V & 480V
- 3P, 4W 125V/250V, 3Ø 250V & 3Ø 480V
- Plugs, Connectors, Receptacles, & Flanged Inlets
- Cast Metal Flip Lid

Corrosion Resistant Locking
- 2P, 3W 125V
- 3P, 4W 125V/250V
- Plugs, Connectors, Receptacles, & Flanged Inlets with nickel plated contacts & blades plus stainless steel shrouds & screws
- Thermoplastic Flip Lid & Boots

Innovative Design Means Easier-to-Wire and Longer Life

Working closely with commercial and industrial electricians, Leviton’s engineers imagined something better. The new Black & White 50Amp devices wire faster and with greater accuracy. Their construction extends device life and reduces equipment downtime.

Easier-to-Wire

- Screwless face module for plugs & connectors
- External cable clamp with screws in one plane
- Screwless cable clamp for plugs and connectors
- Single piece flanged inlet that wires in one step

Longer Life

- Receptacle and plug metal shrouds for reliable and durable connections
- Single piece stainless steel strap for continuous conductivity and corrosion resistance

For a complete list of device configurations and catalogue numbers, see page 6. For accessories such as flip lids and boots, see page 13.
Black & White 15, 20, & 30Amp NEMA Straight Blade and Locking Devices

These rugged Black & White devices launched Leviton’s industrial connection line and earned it a reputation for sturdy, tough industrial products. Designed with impact resistant nylon, thick-walled housings, and single piece brass contacts, these devices help your equipment run longer.

Always imagining something better, we added the Power Indication feature to plugs, connectors, and duplex receptacles. With Power Indication, a green light glows when energy is present. It makes for a safer workplace and faster troubleshooting.

Locking Devices – Power Indication & Corrosion Resistant
- 15, 20, & 30Amp, 125V to 600V
- Plugs, Connectors & Receptacles

Straight Blade Devices – Power Indication, Hospital Grade, and Corrosion Resistant
- 15 & 20Amp, 125V to 250V
- Plugs, Connectors & Receptacles
- Flip Lids and Wallplates

Wetguard® Watertight and Dust Tight Straight Blade and Locking Devices

Wetguard 15, 20 and 30Amp devices are watertight and dust tight for safer connections in wet, dusty environments. Made from UV resistant Santoprene® TPE with nickel plated contacts or blades and stainless steel screws, Wetguard devices last longer when exposed to aggressive outdoor environments than general purpose devices.

They meet IEC IP standards (IP66/67) for dust tight, power jetting, and temporary immersion. Plus they meet UL enclosure standards 3R, 4X, & 12K, making Wetguard devices the connection choice for food processing plants, commercial shipyards, and commercial construction sites.

Wetguard Devices & Accessories:

Locking Devices
- 15, 20, & 30Amp, 125V to 600V
- Plugs, Connectors & Receptacles

Straight Blade Devices
- 15 & 20Amp, 125V to 250V
- Plugs, Connectors & Receptacles

Accessories
- Flip Lids, Plug Caps, & FD Boxes

For a complete list of plug, connector & receptacle configurations, see page 14.
50AMP PLUG & CONNECTOR FEATURES

**Plug**

- Santoprene® TPE Dust Shield (standard cable clamp) prevents particulates from entering wiring chamber
- Solid Brass blades for continuous conductivity
- Copper box terminal with hex head set screw allows for high clamping pressure without damaging strands
- Stainless Steel shroud protects blades and resists distortion
- Fluted housing makes device easier to grab with wet hands or while wearing gloves

**Connector**

- Durable, super tough nylon housing resists impact and abrasion
- Screwless face module makes for faster wiring
- Screwless cable clamp delivers even pressure around the cable, preventing cable distortion
- Grommet prevents particulates from entering wiring chamber. Available on CS6365W and CS6364W
- Deep wire wells make larger diameter cable easier to wire
- California-Style connectors feature Stainless Steel locator pin
- Ratings and catalogue numbers molded into the face module make devices easy to identify for connection or replacement

**STANDARDS & CERTIFICATIONS**

Screwless cable clamp provides even pressure around the cable, preventing cable distortion.

Santoprene® TPE Dust Shield prevents particulates from entering the wiring chamber.

Deep wire wells make larger diameter cable easier to wire.
**Flanged Inlet**

- Single piece assembly for fast, easy wiring and maintenance
- Zinc plated steel casing protects face module yet still allows for quick terminal access
- Deep wire wells make larger diameter cable easier to wire
- Nylon face and body for heat and impact resistance
- Copper box terminal with hex head set screw allows for high clamping pressure without damaging strands
- Zinc plated steel casing resists impact, abuse and distortion
- Solid Brass blades are standard for continuous conductivity
- CR devices feature nickel plated Brass contacts and zinc plated Brass casing for corrosion resistance
- Molded-in strip gauge makes for fast, accurate wire stripping

**Receptacle**

- Reinforced nylon face, body, and back for heat and impact resistance
- Solid Brass contacts for continuous conductivity
- Deep wire wells make larger diameter cable easier to wire
- Copper box terminal with hex head set screw allows for high clamping pressure without damaging strands
- California-Style receptacles feature Stainless Steel locator pin
- Metal shroud makes for reliable and durable connection to shrouded plugs
- Single piece, Stainless Steel mounting strap for continuous conductivity and secure ground path
- Ratings and catalogue numbers molded into face module make for fast, easy identification or replacement

## Certifications and Code Compliance
The plugs and connectors listed herein comply with UL 498 (UL file # E13399), CSA C22.2 No. 42 and meet Mexican NOM standards. They are RoHS compliant.
Leviton 50Amp locking plugs and connectors are suitable for use in accordance with federal, state, county, municipal and local codes.

SPECIFICATIONS

50Amp, locking blade, 2-pole, 3-wire grounding and 3-pole, 4-wire grounding plugs and connectors shall be Leviton Underwriters Laboratories Listed, UL 498, and comply with CSA requirements. Ratings and corrosion resistance as specified on plan.

FEATURES AND BENEFITS

• Durable, super tough nylon housing resists impact and abrasion
• Nylon face module for heat and impact resistance
• Deep wire wells make larger diameter cable easier to wire
• Stainless steel shroud protects blades and resists distortion which prevents connection of disparate devices
• Copper box terminal with hex head set screw allows for high clamping pressure without damaging strands
• Screwless face module makes for faster wiring
• Available with screwless cable clamp for fastest assembly*
• Screwless cable clamp delivers even pressure around the cable preventing cable distortion
• CR devices feature nickel plated brass contacts and stainless steel screws for corrosion resistance
• Ratings and catalogue numbers molded into face module and stamped into stainless steel shroud make devices easy to identify for connection or replacement
• Dust Shield (standard cable clamp) or Grommet (screwless cable clamp) prevents particulates from entering wiring chamber

50A, Non-NEMA Locking Receptacles

Black & White™ Industrial Grade 50 Amp Locking Receptacles
2-Pole, 3-Wire Grounding and 3-Pole, 4-Wire Grounding

Cat. Nos.:
3771, CS6370, CS8269, CS8469 and 6370CR
3769, 7379, CS6369, CS8369, CS8169 and 6369CR

Application
In accordance with the NEC, these devices are suitable for use in all 50 ampere branch circuits of 125V, 250V, 480V, 250V DC/600V AC, or 125/250V industrial installations where UL498 standards of mechanical and electrical life are specified.

Certifications and Code Compliance
The receptacles listed herein comply with UL 498 Listing (UL file # E13399), CSA C22.2 No. 42 and meet Mexican NOM standards. They are RoHS compliant. Leviton 50Amp locking receptacles are suitable for use in accordance with federal, state, county, municipal and local codes.
SPECIFICATIONS

50Amp, locking blade, 2-pole, 3-wire grounding and 3-pole, 4-wire grounding receptacles shall be Leviton Underwriters Laboratories Listed and comply with CSA requirements. Receptacle shall include single piece mounting strap. Ratings and corrosion resistance as scheduled on plan.

FEATURES AND BENEFITS

- Single piece, stainless steel mounting strap with integral ground contact for continuous conductivity and secure ground path
- Metal shroud makes for reliable and durable connection to shrouded plugs
- Reinforced nylon face, body, and back for heat and impact resistance
- Molded-in strip gauge makes for fast, accurate wire stripping
- Deep wire wells make larger diameter cable easier to wire
- Copper box terminal with hex head set screw allows for high clamping pressure without damaging strands
- CR devices feature nickel plated brass contacts and stainless steel screws for corrosion resistance
- Ratings and catalogue numbers molded into face module make for fast, easy identification or replacement

Certifications and Code Compliance
The flanged inlets listed herein comply with UL 498 Listing (UL file # E13399), CSA C22.2 No. 42 and meet Mexican NOM standards. They are RoHS compliant.

Leviton 50Amp locking flanged inlets are suitable for use in accordance with federal, state, county, municipal and local codes.

SPECIFICATIONS
50Amp, locking blade, 2-pole, 3-wire grounding and 3-pole, 4-wire grounding flanged inlets shall be Leviton Underwriters Laboratories Listed and comply with CSA requirements. Flanged inlets shall include zinc plated steel casing. Ratings and corrosion resistance as scheduled on plan.

FEATURES AND BENEFITS
• Single Piece Assembly for fast, easy wiring and maintenance.
  Steel casing protects face module yet still allows for quick terminal access.
• Zinc plated steel casing resists impact, abuse and distortion making for longer life and preventing connection of disparate devices
• Nylon face and body for heat and impact resistance
• Molded-in strip gauge makes for fast, accurate wire stripping
• Deep wire wells make larger diameter cable easier to wire
• Copper box terminal with hex head set screw allows for high clamping pressure without damaging strands
• CR devices feature nickel plated brass contacts and zinc plated brass casing for corrosion resistance
• Ratings and catalogue numbers molded into face module make for fast, easy identification or replacement

50AMP NON-NEMA DEVICE ACCESSORIES

RECEPTACLE ACCESSORIES

- Flip Lids for General Purpose and Corrosion Resistant environments.
- Snap-back lids ensure receptacle is covered when not in-use.

GENERAL PURPOSE

Material: Powder Coated Cast Aluminum
Color: Industrial Gray
Mounting: Four Stainless Steel Screws
Hinge: Stainless Steel Pin & Spring
Gasket: Foam Gasket
Ratings: IP64/NEMA Type 3R
Dimensions same as 7788CR

CORROSION RESISTANT

Material: Reinforced Polycarbonate Thermoplastic
Color: High Visibility Yellow
Mounting: Four Stainless Steel Screws
Hinge: Stainless Steel Pin & Spring
Gasket: Foam Gasket
Ratings: IP64/NEMA Type 3R
Dimensions same as 7770

PLUG AND CONNECTOR ACCESSORIES

- For use only with Leviton non-NEMA 50A locking plugs and connectors.
- Not suitable for use with other 50A devices or boots.
- Reduces the amount of dirt, debris, and water entering a connected plug and connector
- UV resistant Santoprene thermoplastic elastomer construction extends life and reduces cracking
- IP55 rating applies when Leviton 50A plug with boot is fully connected to a Leviton 50A connector with boot.

PLUG BOOT

Material: Santoprene Thermoplastic Elastomer
Color: Black and High Visibility Yellow

CONNECTOR BOOT

Material: Santoprene Thermoplastic Elastomer
Color: Black and High Visibility Yellow

CONNECTION GRIPS

- Protect the plug or connector cable
- Easily installs on the standard external cable clamp
- Mesh Type: Galvanized Steel, closed, single weave mesh

LOCKING DEVICES & WIRE MANAGEMENT

1. Locking Plugs & Connectors – Black & White™
   - 15, 20 & 30Amp
   - 125V thru 600V
   - 2-P & 3-W thru 4-P 5-W
   - 40 NEMA Configurations
   - 20 to 100Amp, IP67
   - Reinforced Thermoplastic
   - One-Piece Brass Contacts
   - UL/Fed.Spec./CSA/NOM
   - Positive Crimp Lock
   - 2-P 3-W 125V
   - 14-8
   - UL/Fed.Spec./CSA/OM
   - UL Listed and CSA Certified (Double Set Screw Version Only)

2. V-O-MAX™ Locking Receptacles
   - 15, 20 & 30Amp
   - 125V thru 600V
   - 2-P 3-W thru 4-P 5-W
   - 40 NEMA Configurations
   - 14 Non-NEMA Configurations
   - UL/Fed.Spec./CSA/NOM
   - Positive Crimp Lock Wire Clamps
   - Nylon Construction

4. miniLOCK™ Midget Devices
   - 15Amp
   - 125V thru 250V
   - 2-P 3-W thru 3-P 3-W
   - 3 NEMA Configurations
   - UL/Fed.Spec./CSA/NOM
   - Nylon Construction
   - Plugs, Connectors, Receptacles & Inlets

5. Wire Mesh Grips
   - Pulling, Support, & Strain Relief
   - Single & Double Eyes
   - Flexible, Offset & Rotating Eyes
   - Closed, Split Lace, or Split Rod Mesh
   - Liquid Tight, Wide Range, Deluxe Grips

WATERTIGHT DEVICES

1. Wetguard® Watertight Devices
   - 15, 20 and 30Amp
   - 125V thru 600V
   - 2-P & 3-W thru 4-P 5-W
   - 22 NEMA Configurations
   - 4 Non-NEMA Configurations
   - UL/Fed.Spec./CSA/NOM
   - ED NR-CA Configurations
   - All Configs Available in High-Visibility Yellow
   - Selected Configs Available in Black

2. Wetguard Watertight Accessories
   - Watertight Flip Lids with Lockout/Tagout
   - High Visibility Yellow & Black
   - SS Hinge & Screws
   - Flexible, Watertight
   - Plug Caps
   - Reinforced Thermoplastic
   - FD Boxes: 1/2", 3/4", & 1" Knockouts

3. IEC 399 Pin & Sleeve
   - 20 to 100Amp, IP67 Watertight
   - Plugs & Connectors
   - Receptacles & Inlets
   - 20 to 100Amp Switches
   - Mechanical Interlock
   - Non-Fused & Fused
   - Valox® PBT Back Boxes
   - Replacement Components
   - UL/CSA

SINGLE POLE / SINGLE PIN DEVICES

1. 1S Series – Taper Nose
   - Up to 125Amp, 600V
   - Insulator – Shatterproof and Crack Proof
   - Slit and Cam Male
   - Contact Design - Compensates for Wear
   - Color-Coded Insulators for Easy Phase Identification
   - UL Listed (Set Screw Version Only)

2. 16 & 18 Series – Taper Nose and Ball Nose
   - Up to 400Amp, 600V
   - Insulator – Shatterproof and Crack Proof
   - Slit and Cam Male
   - Contact Design – Compensates for Wear
   - Color-Coded Insulators for Easy Phase Identification
   - UL Listed and CSA Certified (Double Set Screw Version Only)

INDUSTRIAL GRADE SWITCHES

1. Heavy Duty AC Control with Toggle Actuator
   - 15, 20 & 30Amp
   - 120/2277V AC
   - SP, DP 3-Way
   - UL/Fed.Spec./CSA/NOM
   - 19 Non-NEMA Configurations
   - Contact Welding Protection
   - Standardized Circuit Breaker with Low-Melt Fuses
   - UL Listed and CSA Certified

2. Key Lock AC Control with Key Lock Actuator
   - 20Amp
   - 120/2277V AC
   - SP, DP 3-Way
   - Key Removable in ON or OFF Positions
   - UL/Fed.Spec./CSA/NOM
   - Performs to Fed. Spec. Standards

3. Motor Starter Switches - AC Control for Single-Phase or Three-Phase Motor Loads
   - 30, 40 & 60Amp
   - 120V AC thru 600V AC
   - Max HP Rating: 20HP 600V AC
   - Available as Open Switch or with NEMA/Type 1 or 3R Enclosure
   - cU/UL/NOM

3. Safety Disconnect Switch AC Control For Horsepower Rated Motor Loads
   - 30, 60 & 100Amp
   - Heavy Duty 600V AC
   - Max HP Rating: 50HP 600V AC
   - Fused and Non-Fused
   - Dust-tight and Watertight
   - IP67, ip65
   - NEMA 3R, 4X, 12K

ENERGY CONSERVATION & COMMUNICATIONS DEVICES

1. Occupancy Sensor AC Control with Automatic Switching
   - Incandescent, Low Voltage, Motor Loads
   - Fluorescent (Magnetic or Electronic Ballast)
   - 120/277V AC
   - UL/CSA/NOM
   - Decorat® Style Wall Switch Design
   - Ceiling Mount & High Bay Available
   - Available with Title 24 Compliance
   - Ultrasonic, PIR, or Multi-Tech

2. Communication Modules 3803 Series
   - Hard Wired • CE Approved
   - 2 Options for Ground Connection
   - For Use on Allen Bradley & 4-20 ma
   - Protects Programmable Logic Devices from Surges in Harsh Electromagnetic or Geographic Areas

3. DuraPort™ Industrial Connectivity
   - IP67 Watertight Seal
   - Outlets, Wallplates, & Patch Cords
   - Compatible with QuickPort jacks including 5e & 6+
   - Captive Dust Cap Protects Unused Ports
   - SS Gasketed Watertight Wallplate

STRAIGHT BLADE DEVICES

1. Power Indication Receptacles
   - 15-20Amp Configurations
   - 100,000 Hr. Power Status Indicator
   - Nickel-Plated Brass Strap with Integral Ground Contacts
   - Back & Side Wired Terminations
   - Hospital Grade with Permanent “Green Dot” Lens

2. Surge Protection Receptacles
   - 15-20Amp Duplex, Single & 4-in-1 Configurations
   - UL Listed to 1449 and 498 Standards
   - Decora® Style Nylon Face
   - Surge with IGBT Versions
   - Protection Indicator Light & Audible Damage Alarm

3. SmartLockPRO™ GFCI
   - 15-20Amp Configurations
   - Back & Side Wired
   - LED Status Indicator
   - Meets New UL GFCI Requirements, Effective 2006
   - Prevents Reset If Protective Function Is Compromised
   - Prevents Reset in Case of Line Load Reverse Wiring

4. DIN Rail Mounted Receptacles
   - Surge Protection
   - Standard Industrial Grade
   - Hospital Grade
   - GFCI Receptacle
   - 15A, 120V
   - Straight Blade
   - Duplex Receptacle

5. Python® Industrial/OEM/Commercial Connections
   - Nylon Single-Piece Body
   - 15-20Amp Straight & Angle Versions
   - Removable Wide Range Cord Inset
   - Enclosed Wiring Module
   - Triple-Combo Screws

6. Black & White™ Power Indication Industrial Connections
   - Green Light Glows When Energized
   - 125V, 250V, & 277V
   - 15, 20, 30Amp Plugs & Connectors
   - Super Tough Nylon Body
   - Triple-Combo Screws
   - Catalog & NEMA Numbers Printed on Cord Clamp
