Fire Ant Killer

Part No. 14039

- Ready to use
- Fast acting
- Ideal for controlling fire ants
- Non-corrosive, non-conductive
- 4 oz. single use pouch treats up to 12″ x 12″ area

Part No. 14037

- Kills on contact
- Non-chlorinated formulation
- Safe on most plastics
- Reaches over 20 feet

I. Product Description
CRC Fire Ant Killer Granules are highly effective insecticide that kills the queen within 24 hours and provides long lasting control of fire ants and other insects in and around telecom and utility equipment. Fire Ant Granules are fast acting and prevent new fire ant mounds from forming.

II. Applications
For use in and around buried cables, cable television pedestals, cables, pad-mounted electric power transformers, telephone cables, underground vaults, telecommunications equipment (boxes, closures, interfaces, pedestals, protectors, and terminals), power and utilities equipment (camera housings, control panels, emergency light systems, fire alarm systems and lights/alarms), railroad systems equipment (breaker boxes, railroad signals, traffic control boxes and signals and transformer pads).

III. Features & Benefits
• Ready to use.
• Fast acting. Ideal for controlling fire ants.
• 4 oz. single use pouch treats up to 12” x 12” area.
• Non-corrosive, non-conductive. Safe for equipment and personnel.

I. Product Description
CRC Fire Ant Killer is a fast-acting, high strength insecticide that kills fire ants on contact. Fire Ant Killer contains no chlorinated solvents and is harmless to most plastics. It features a high dielectric strength of 40,100 volts. Fire Ant Killer can be used to kill ants in their mounds by using the injector rod attachment or it can be used to kill visible ants on the surface.

II. Applications
Recommended for use by any outdoor worker around electric and power utilities, telecommunications equipment and installation sites, cable and wire installation sites, and industrial plant grounds.

III. Features & Benefits
• Kills on contact.
• Non-chlorinated formulation. Replaces chlorinated solvent-based fire ant killers.
• Safe on most plastics. Test first on a small area.
• Reaches over 20 feet. Provides a dense accurate spray to drench harmful insects and their nests.
• 23” Injector rod attachment (Part No.14038) can be used to kill ants in their mounds.
• The only Fire Ant Killer in the industry with its own Material Safety Data Sheet right on the label. Provides instant access to current safety information should an accident or OSHA inspection occur. Helps comply with OSHA Hazard Communications Standard 29 CFR 1910.1200.
