IT’S NOT CLEAN UNLESS YOU WIPE IT ALL AWAY
WHY HYGEN?

The Rubbermaid HYGEN™ Disposable Microfiber System is the solution for optimizing infection prevention, ensuring environmental hygiene, and improving productivity.

The innovative technology knits microfiber yarn into a non-woven substrate, creating unique, disposable microfiber.

**99.9% Microbe Removal, Including C. diff**
- Proven 99.9% microbe removal claim
- Helps stop the chain of infection
- Eliminates food sources for live pathogens

**Superior Cleaning Performance**
- Microfiber cleaning with built-in scrubbing power
- Streak-free cleaning for mirrors, glass, and stainless steel
- Effectively removes dirt without smearing

**Versatile Cleaning**
- Compatible with bleach andquat**
- Ideal for dusting and wet cleaning
- Convenient charging system and compatible with existing tools

*Based on third party testing with water only. The product can be used with a wide array of cleaning solutions. EPA EST 90650-NC-001

**Compatible with quat (cloth); bleach-safe (cloth and mop)
KILLING MICROBES DOESN’T MAKE THEM DISAPPEAR

Traditional disposable products lack scrubbing power, streak and smear, and cannot remove microbes, leaving behind a food source for live pathogens.

Rubbermaid HYGEN Disposable Microfiber eliminates the food source and combines superior microfiber with built-in scrubber technology, in a disposable application, to prevent cross-transmission and reduce the risk of healthcare-associated infections.

**Built-In Scrubbers**

Innovative microbe removing technology is complemented with built-in zigzag scrubbers to effectively remove dirt without streaking or smearing.

**RECOMMENDED HEALTHCARE APPLICATIONS**
