Wireless Alerts. Made simple by STI.
All receivers work up to 1000 foot range (line of sight), 433MHz and are supervised for low battery and signal reception.

8-Channel Receiver
- Monitors up to 8 different STI devices
- 8 zone LED indicators
- Dual antennas for increased signal reception
- Mirror function (works with up to 4 additional receivers)

8-Zone Relay Board
- Form “C” relay output board for 8-Channel Receiver

4-Channel Voice Receiver
- Monitors up to 4 different STI devices
- Sounds selectable: 10 tunes or voice messages (English or Spanish)
- 53 selectable words can be programmed in sets of up to 4 to create custom message
- Mounts on wall or sits on table
4-Channel Receiver
- Monitors up to 4 different STI devices
- Chimes and flashes when triggered
- Additional receivers can be plugged into another outlet to hear the chime in multiple rooms
- Connecting devices can be latched in memory

Single Slave Receiver
- Monitors a single STI device
- Form “C” relay
- 12 VDC operation

Repeater
- Extend the range of all transmitters an additional 1000 feet
- No programming required
Transmitters

**Wireless Fire Extinguisher Theft Stopper®**
- Wireless fire extinguisher alarm
- Sounds a powerful 95/105 dB warning horn and sends a signal to an STI receiver when activated
- Helps prevent theft, misuse or vandalism of fire extinguishers
- Protects extinguisher, yet leaves it accessible for emergencies

**Stopper® Station with Wireless Transmission**
- Stopper Station push button with wireless transmission
- Sends a signal to an STI receiver when activated
- Available in five colors: red, green, yellow, white or blue
- Custom or standard label

**Wireless Exit Stopper®**
- Wireless multifunction door alarm
- Sounds a powerful 95/105 dB warning horn and sends a signal to an STI receiver when activated
- Helps prevent unauthorized exits/entries through emergency exit and rear doors
- Unit can be set to emit for 30 seconds, three minutes or continuously

**Stopper® Station with Wireless Stopper® Station Shield with Sound and Transmitter**
- Sounds a local horn and sends a signal to an STI receiver when activated
- Button available in five colors: red, green, yellow, white or blue
- Custom or standard label
- Cover protects against vandalism and accidental activation
All transmitters work up to 1000 foot range* (line of sight), 433MHz and are supervised for low battery and signal reception.

**Wireless Driveway Monitor (Solar or Battery Powered)**
- Alerts when a vehicle enters or leaves driveway
- Movement of any large metallic (iron or steel) object causes the sensor to transmit to the receiver

**Wireless Motion Detectors (Indoor or Outdoor)**
- Alerts when sensor detects motion

**Wireless Mailbox Alert**
- Alerts when mail is delivered
- Helps eliminate repeat trips out to an empty mailbox

**Wireless Garage Sentry® Alert**
- Let's you know when the garage door is open or closed

**Wireless Universal Alert**
- Let’s you know when a monitored site has been tripped
- Application uses: shed, door, window, gate, cabinet, etc.

**Wireless Pool Entrance Alert**
- Will alert when monitored site is tripped
- Local audible alert, sends a signal to an STI receiver

**Wireless Doorbell Button**
- Sends a wireless signal to an STI receiver
- *500 foot range (line of sight)*
Wireless Alerts
for Commercial Devices

The Commercial-Grade Wireless System You Need
Add wireless capabilities to many of STI’s existing products that are installed in your buildings, such as Extinguisher Alert, Door Exit Alert and Stopper® Station buttons.

- Easy install & setup
- Works with many existing STI products
- 1000’ range
- Supervised devices (low battery and connection)
