STI BEAM SMOKE DAMAGE STOPPER®

KEY FEATURES

General Information
· Protection against misalignment and false fire alarms.
· Three year guarantee against breakage in normal use.

Design
· Designed to protect both transmitter and receiver units (sold individually).

Construction
· Super tough construction of 9-gauge coated steel wire makes guards extremely difficult to break.
· Coated with a tough, corrosion resistant polyester shell.

Installation
· Fast and easy installation.
· May be painted once prior to installation.

Options
· Five sizes available.

PRODUCT OVERVIEW
Five models are offered to protect the vital sensor units of projected beam type smoke detectors in large areas (such as gymnasiums, warehouses and auditoriums). STI Beam Smoke Damage Stoppers are designed to protect both transmitter and receiver sensors. Installation is simple with anchors and screws provided.

BACKED BY A THREE YEAR GUARANTEE
As all STI protective covers, Beam Smoke Damage Stoppers are backed by a three year guarantee against breakage in normal use. They are constructed of 9-gauge, welded steel wire coated with a tough, corrosion resistant polyester shell.
